# How To Play

2 cards to each Player  
(used by the Player only)

2 cards to the Dealer  
(used by Dealer only)

5 community cards face up on the table  
(to be used by both Player and Dealer,  
along with their two-card hands)

**ANTE:** Each Player makes an ante wager to receive 2 cards.

**BONUS:** Players also have the option to place a BOUNS JACKPOT Wager.

**FLOP OR FOLD:** Players wishing to continue to play must wager twice the amount of the ante; Players not wishing to continue may hand in their 2 cards and forfeit the ante wager.

**3 CARDS** 3 community cards are now placed face up on the table.

**TURN** Players now have the OPTION to not bet or bet to ante.

**1 CARD** A 4th community card is turned face up on the table.

**RIVER** Players now have the OPTION to not bet or bet equal to ante.

**1 CARD** A 5th community card is turned face up on the table.

Each Player uses his/her two-card hand along with 3, 4 or all of the 5 community cards to make the best "poker hand!"

**ANY TWO CARDS CAN WIN!**

No Player to Player competition.  
Each Player plays against the Dealer.  
Best poker-ranking hand wins.  
Optional bonus wager plays against a posted payable (not the Dealer's hand).

When a Player wins, the Player retains his/her ante and is paid even money on the total of the FLOP+TURN+RIVER wagers.

When a Player's winning hand is a Straight or higher, they are paid an additional amount equal to his/her ante.

All poker-ranked hands of equal value between Player and Dealer will be considered a "tie" or "push."

**Optional bonus wager is paid no matter who wins the hand (Player or Dealer).**
